• Artist

Yoo Seungho (b.1974) graduated from the Department of Painting at Hansung University (1999). He currently lives and works in Seoul. The linguistic meaning and the image created from the countless 'letter-signs' appearing in Yoo Seungho's work reveals the non-essential mutual between text and image through continuous separation and combination. As a result, his work is positioned as a new and unique painting by transcending the boundaries of meaning as a sign and painting as an image while acting independently or interacting in an ambiguous relationship.

• Explanation

It symbolizes a melting candle. Using Chinese characters, images, and tiny symbols are painted with brushstrokes.
