- **Artist**

Kim Shinwook(b.1982) graduated from the Department of Fine Arts at Goldsmith University (2012), and completed a master's degree in the Department of Fine Art Photography at Royal College of Art (2012). He received a doctorate in Fine Art at the University of East London (2021). He has been working as an exclusive artist at CE Contemporary in Milan. Kim Shinwook presents various stories surrounding the real object rather than just itself. A single photograph contains many objects. The traces of the photographed objects remain in the photograph, although people cannot perceive this, and through this, he intended to explore the essence of the visible and the invisible, the existing and the non-existent.

- **Explanation**

He photographed the Metasequoia Road at night. The night forest and the darkness of the border area reminded the days when the artist was on his night shift during his military service. He experienced an illusion that perceive a large tree as a person during the night shift. Through this, *Mattalach* was shot in a composition where tall people stood in a line and looked at the spectators in a daunting way.
